PROFESSIONAL SUMMARY

Full-Stack and Backend Developer with **2+ years** building production-grade web applications, AI-powered automation systems, and enterprise platforms. Proficient in Laravel, React, Next.js, Python, and FastAPI, with deep hands-on experience integrating the Anthropic Claude API for intelligent document workflows, agentic programs, and AI-driven tooling. Proven track record of delivering end-to-end solutions both independently as a freelance developer and as part of collaborative agile teams.

WORK EXPERIENCE

Junior Software Engineer & AI Engineer Jan 2026 – Present
Arellano Global · Remote

- Design and implement automation workflows that replace manual, repetitive tasks — reducing turnaround time and human error across daily operations.
- Build agentic programs powered by Claude (Anthropic) to automate document processing, data extraction, and report generation across internal tools.
- Develop Claude-driven assistants and tool integrations using the Anthropic API and Claude Code, applying prompt engineering, tool use, and prompt caching for cost-efficient performance.
- Create and maintain multiple client-facing platforms — **GrowthOS, Meridian, and IDS** — including new features, bug fixes, database work, and UI improvements.
- Collaborate with senior developers on requirement gathering, code reviews, and version control (Git) to ship reliable, well-tested features.

Freelance Web Developer 2+ years Aug 2023 – Nov 2025
Independent · Remote · National Capital Region, Philippines

- Delivered end-to-end web applications for clients across front-end interface design, server-side back-end engineering, and full-stack architecture over 2+ years of independent practice.
- Built and deployed custom websites and web apps using Laravel, React, MySQL, and Tailwind CSS across multiple industries.
- Managed the full project lifecycle independently — from client requirements and scoping through development, testing, and delivery.
- Maintained long-term client relationships with iterative improvements, bug fixes, and feature extensions based on evolving needs.

HR Associate (OJT – 486 hours) Sep 2024 – Mar 2025
Philand Security Agency Inc. · Quezon City, Philippines

- Assisted in recruitment processes, including screening résumés and scheduling interviews.
- Managed and organized employee records and HR documentation.
- Communicated with applicants and employees regarding HR-related concerns.

EDUCATION

Bachelor of Science in Information Technology Jun 2021 – Jul 2025
Quezon City University

KEY PROJECTS

IDS Platform — Arellano Global ids.arellanoglobal.org ↗
Next.js · NocoDB · Xero API · Make.com · Claude AI

- Built and maintain the IDS internal operations platform, integrating Xero for vendor invoice management and payment tracking.
- Automated PDF attachment uploads to Xero invoices, replacing a manual email-based workflow.
- Developed Claude-powered automation pipelines via Make.com for document processing, email dispatch, and data syncing.

Meridian — Arellano Global app.meridianintel.co ↗
Next.js · Keycloak SSO · NocoDB

- Created and maintain a client-facing container tracking & logistics platform with secure single sign-on via Keycloak.
- Extended the platform with new features, database work, and UI improvements based on evolving operational needs.

GrowthOS Platform — Arellano Global platform.growthos.to ↗
Next.js · Whop API · Anthropic API · NocoDB

- Developed and maintain a client and admin-facing platform covering onboarding flows and credit-based billing via Whop.
- Integrated the Anthropic API to power AI-driven tools with prompt engineering, tool use, and prompt caching.

TalentFlow — Applicant Tracking System

Laravel · PHP · MySQL · Tailwind CSS

- End-to-end recruitment platform covering job posting, applicant registration, automated résumé scoring, interview scheduling, and the offer/hire workflow.

Hope Integrated School — School Management System

Python · FastAPI · NocoDB · Tailwind CSS · Alpine.js

- Production-grade modular school ERP with RBAC governance, enrollment scheduling, QR-based attendance, GPA computation, and PDF report-card generation.

EmpowerEd — OSY Empowerment Platform

Laravel · PHP · MySQL · Tailwind CSS

- Web platform connecting Out-of-School Youth with coordinators, instructors, and employers — featuring course lifecycle, automated grading, and certificate issuance.

TECHNICAL SKILLS

Languages & Frameworks: PHP (Laravel), JavaScript (React, Next.js, Alpine.js), Python (FastAPI), HTML, CSS

Frontend: Tailwind CSS, Bootstrap · **Databases:** MySQL, SQLite, NocoDB, SQL

AI & Automation: Anthropic Claude API, Claude Code, Prompt Engineering, Tool Use, Prompt Caching, Make.com

Third-Party APIs: Xero API, Whop API, Keycloak SSO, Gmail SMTP · **Tools & DevOps:** Git, Docker, Composer, npm, Postman, VS Code

Reporting & Data: Power BI, ReportLab, DomPDF, PDF Generation · **Other:** REST APIs, JWT Authentication, QR Code Integration, RBAC

SOFT SKILLS

Empathy & Active Listening · Problem-Solving · Strong Work Ethic · Attention to Detail · Adaptability
